THE GAZETTE.

WEDNESDAY EVENING, MAY 23, 1866.

GOLD is going out and ffve-twenties coming back. About ten millions in gold is the amount of shipments from New York and Boston in the last two weeks. Gold has advanced to 130 and a fraction, and there holds steady, not withstanding the fact that the Treasury has within the same time put nine or ten millions on the market. Cotton has also declined in Liverpool on account of the large receipts of the same from the United States, India, and Egypt. Flour and wheat are lower abroad than in New York, and therefore large importations in these articles are made into New York. Cargoes of test Michigan wheat are coming back; and also French flour is added to our list of imports.— Much interest is felt in the subject of the growing crops in this country. The wheat harvest will be later than usual. It is not believed that the crop will exceed the average; and it is probable that there will be but a small surplus, if any, for exportation. The Southern wheat will come first into the market, and at good prices. But the South will not be able to do more this year than supply itself with bread-stuffs. Formerly, in a period of short crops, the slave labor of the South helped us out.— But this resource is now cut off, and the freedmen are not expected to do more than to provide bread for themselves. The corn crop, it is hoped, will be increased even over the large product of last year.—Nat. Int.
